Designed by the young talent Pedro Paulo Venzon, Bamba brings us back to the idea of a design that remains at the service of moments without renouncing its authenticity.

SERRA LOW TABLE 2013, BY VÍCTOR CARRASCO

Serra is a very suitable side table when it comes to complementing other pieces such as sofas, armchairs or poufs. It is a great accessory for the home or for the so-called in-between spaces. It is possible to choose between a rectangular or rounded surface, but also a wide range of finishes that will help fit in with all kinds of environments. In addition, the rectangular version offers the possibility of including a strap with which to easily transport the table.
