Steelcase

Steelcase Karman™

The Kármán Line is where the earth’s atmosphere meets space, weightlessness becomes possible and where going beyond becomes a reality. That spirit and feeling is captured in Steelcase Karman.

Beyond is something that lies outside the scope of ordinary experience.

Steelcase Karman goes beyond. It’s 21st century design delivers industry-leading comfort, ergonomics and sustainability.

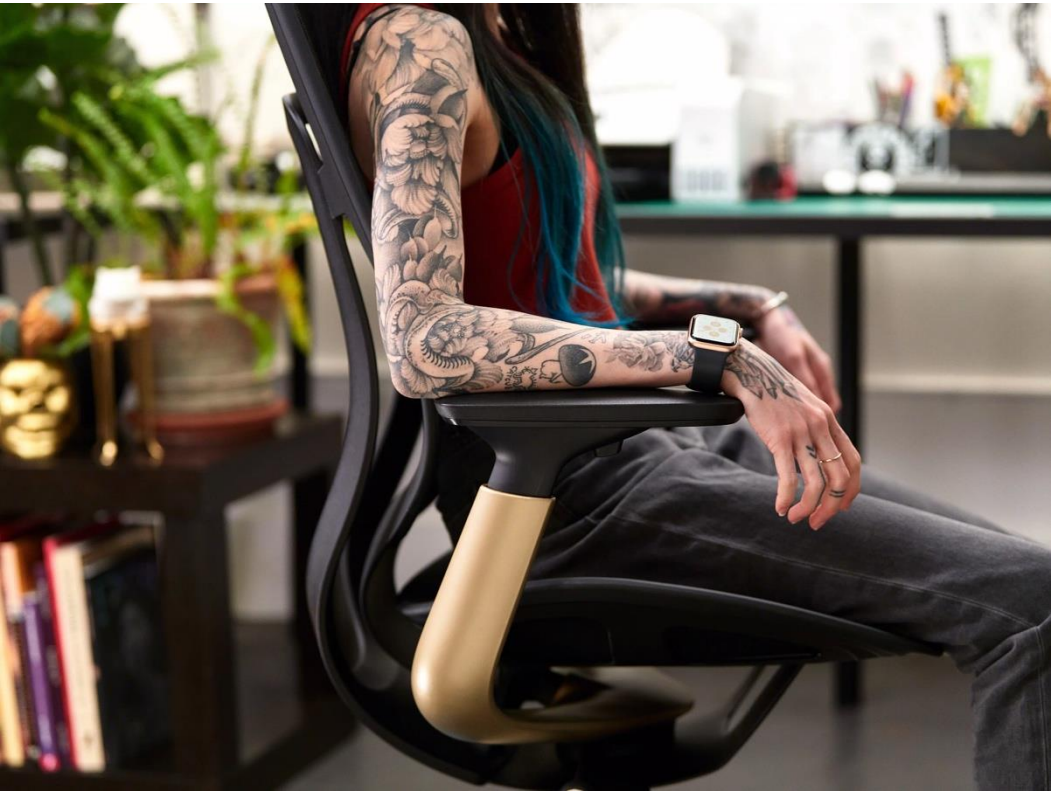

Introducing Steelcase Karman™

Beyond Comfort.

Steelcase Karman goes beyond other mesh chairs by delivering comfort in an entirely new way.

Steelcase Karman’s design relies more on physics than mechanism – intuitively responding to your movement and weight while providing effortless comfort.

A one-of-a-kind patented hybrid seat with integrated cushioning provides maximum comfort for as long as you sit – never sinks, never stiff like other mesh chairs.

The flexing streamlined frame eliminates stiff edges and pressure points, so you can comfortably sit any way you want.

Comfort Features

Patented Hybrid Seat

Organic Movement

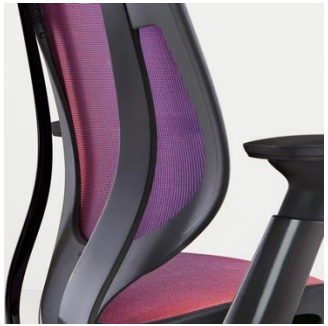

Comfort Edge

Comfort Dial

4D Arm

LiveBack

Lumbar Support

Beyond Mesh.

Steelcase Karman's proprietary performance textile, Intermix, creates just-right support in the seat and back, for all shapes and sizes.

Introducing Intermix

Intermix is a proprietary performance textile that is integral to Karman’s performance, comfort and aesthetic.

Using patented Shrinx technology, Intermix creates perfect tension to the frame and ideal support for your body.

Steelcase Karman is unique among other mesh chairs, going beyond black, white and gray by offering 13 Intermix colors and a wide range of finish options.

Beyond Convention.

Responsible design is integral to Steelcase Karman. It was designed with the planet and the future in mind.

Designed with only the most essential and sustainable materials, Steelcase Karman weighs only 29 lbs - yet the engineering makes it incredibly strong.

Steelcase Karman™ goes beyond— wherever work happens.
